Medical Conditions

Full disclosure of all medical conditions is required for the safety of all dogs, owners, and staff at Totally Woof. Please notify us of any medications, chronic conditions, infections, allergies, or mental/physical disorders your dog has or may develop. Dogs that have recently undergone surgery must wait a minimum of ten (10) days before returning for any services.

Vaccinations

Dogs must be current with all required vaccinations. Owners must provide up-to-date veterinary records showing the following:

- Bordetella (Kennel Cough): Every six (6) months
- Negative Fecal Test: Every six (6) months
- Rabies: Current vaccination required
- Distemper-Parvovirus: Current vaccination required.
- Canine Influenza: Recommended, but not mandatory.

Please note that despite vaccination, the transmission of infectious diseases remains possible. Dogs receiving their **first** Bordetella vaccine must wait ten (10) days before commencing any services. Puppies must complete the full series of required vaccinations before being eligible for services.

Medication Administration

If your dog requires medication during their stay, please provide all medications clearly labeled with both the dog's name, along with specific dosage instructions for each administration time (AM, noon, PM).

Medications administered **at standard meal times are included in the daily fee.** If medication must be administered **at any other time outside of scheduled meal times, a \$5 administration fee** per occurrence will apply.

Injectable medications may be administered on a case-by-case basis, with prior approval and at an additional fee.

Flea and Tick Prevention

Dogs are not permitted to wear flea or tick collars; these collars must be removed and stored by the owner upon check-in. Should a dog show signs of fleas, the dog will be immediately quarantined and the owner notified.

Boarding dogs found with fleas will be treated at the discretion of Totally Woof, and ALL associated fees will be charged to the owner at check-out. Totally Woof is not responsible for fleas or ticks acquired while on the premises.

Age & Size Limitations

To ensure a safe and enjoyable environment for all pets, Totally Woof reserves the right to restrict participation based on a dog's age, size, or overall suitability for group play

Male Dogs – Neutering

Intact male dogs will be closely monitored in daycare starting at seven (7) months of age until they are neutered. Signs of intact behavior may lead to limited group play, probation, or temporary suspension. All male dogs must be neutered by one (1) year of age; failure to do so could result in suspension from services until neutering is completed.

Female Dogs – Spaying

We strongly encourage female dogs to be spayed by seven (7) months of age. Unspayed females are not permitted to attend daycare while in heat (minimum of 21 days). Owners of unspayed females acknowledge that Totally Woof is not responsible or liable for any resulting medical conditions, and owners are solely responsible for any associated risks. Owners are responsible for notifying staff if their dog is intact or may be entering a heat cycle. **Pregnant female dogs are not eligible for any services.**

Totally Woof strives to provide a safe environment by grouping dogs according to personality, energy, and play style. Our staff supervises play sessions and will remove any dog that poses a threat to self or others. Owners acknowledge that Totally Woof is not liable for any injuries or illnesses that occur during their dog's time at our facility. Veterinarian Care in Emergencies

In the event your dog becomes ill or injured while in our care, Totally Woof reserves the right to transport your dog to a veterinarian. Every effort will be made to take your dog to their regular veterinarian; if unavailable, your dog will be taken to the nearest emergency veterinary facility.

Owners are responsible for all veterinary costs incurred. In addition, **a fee of \$25 per hour** will be charged for transportation and staff time spent waiting with your dog.

Meals at Daycare

To ensure your dog's comfort and safety, Totally Woof follows best practices by allowing at least a 20-minute rest period after meals. If your dog's last meal was within 20 minutes of check-in, it is the owner's responsibility to inform staff.

A mid-day lunch time is provided for puppies under 1 year of age or dogs with medical needs. Dogs in Kona Club or boarding receive an evening meal, which must be provided by the owner.

Safety and Health Protocols

We are very proud of what makes us different from other daycares. We have invested in **PackPro Training** for all staff to ensure your pup is with trained and well educated staff who are working and engaging with your pup throughout their stay. Not just 'babysitting'.

All of our campuses are video monitored and have security.

Totally Woof has staff training sessions focusing on canine behavior and body language, group management, pet CPR and first aid, training and emergency response. These initiatives are designed to ensure the highest standard of care for your pet.

We have elevated our cleaning protocols with education from a microbiologist who contracted with Totally Woof, use of professional floor machines, and veterinarian medical grade cleaning supplies.
